Hot topics in contract manufacturing, bioanalytics, fill & finish and pharma packaging

In this focus topic, EUROPEAN BIOTECHNOLOGY MAGAZINE will shed a light on the latest trends in the biomanufacturing and pharma packaging market: How must CDMOs and packaging suppliers collaborate to deliver compliance with EU serialisation requirements? Which measures must CMOs take now to close the capacity gap? Whatever your business focus is, whether you're active in facility construction, cell line development/engineering, continuous/fed-batch bioprocessing in stainless steel or single use equipment, new vaccine formulations, bioprocess characterisation/documentation/design, process analytics and control, bioequivalence analyses, or downstream processing – contact us in the editorial office or meet our team in Amsterdam on 25/26 April.

Present your expertise

Pharma packaging companies, drug developers and CDMOs, plant constructors, equipment and software specialists as well as QBD experts – every part of the manufacture/packaging value chain – will have the opportunity to present their latest products, processes, and equipment in this special. EUROPEAN BIOTECHNOLOGY MAGAZINE goes out to decision makers throughout the entire European Life Sciences sector. Take advantage of to the journal's highly relevant readership and grab this opportunity to target your audience!

Topics to be covered

CDMOs: biosimilars, single use equipment, media/cell line optimisation, protein engineering, downstream processing of challenging drug formats, continuous bioprocessing, up- & downstream processing, fill & finish, process development automation, DoE, Cell and Gene therapy analytics, quality, and delivery compliance
CPOs/Pharma packaging: contract serialisation for SMEs, progress in self-administration devices, anti-tampering devices, drug stability

Editorial Deadline
29-05-2017
