PHARMAPACK 
By CPHI

24th and 25th January
Porte de Versailles, Paris
France

Pharmapack 2024

PHARMAPACK Pharmapack is Europe's largest event dedicated to the pharmaceutical packaging and drug delivery industries. With an extensive conference agenda, it provides invaluable opportunities for networking and showcasing innovations.

Pharmapack 2024 is taking place on 24th-25th January 2024 at Paris Expo, Porte de Versailles, Paris, France. It will bring together nearly 5500 pharma executives from more than 75 different countries and more than 350 exhibitors at the heart of the pharma packaging and drug delivery industry.

Beyond the exhibition floor, there will be several sessions delivered by industry experts that will take place over the

2-day event to discuss the very latest market trends in the drug delivery space. Running alongside will be workshops and the returning 'innovation gallery' which will showcase exhibitor innovations providing a window on the latest trends and cutting-edge developments. The 'learning labs' will provide an opportunity to hear from different exhibitors on their research and products. The show floor will also feature Start-up hub, a platform

for young start-up companies to exhibit their innovations, providing for valuable brand visibility. All these sessions will be streamed for online audiences. In-person attendees can also participate in guided expert led walk-throughs on the 'innovation tours'.

The much-awaited Pharmapack Awards will return this year celebrating the best products and innovations from the pharma packaging world in two categories of 'exhibitor innovation' and 'health products' - with an awards ceremony on 24th January.

"The great thing about Pharmapack is that it remains the absolute heart of the drug packaging and delivery industry. The 2024 edition will feature three new zones including a French Pavilion - bringing partnering opportunities for French innovators and manufacturers" added, Laura Murina, Brand Manager, Pharmapack. ■

Heart of pharma

GREETING Pharmapack 2023 concluded with the drug delivery and packaging community anticipating significant growth through 2023, driven by sustainability initiatives and innovations. One

major trend this year is the marriage of connected devices with sustainability goals, with even smaller companies embracing this approach. The

industry is seeking new partnerships and displaying greater openness in its criteria for consideration. Companies of all sizes are aiming to expand their networks and secure their supply chains. Pharmapack 2024 will bring together industry thought leaders, experts, and exhibitors to share knowledge, insights, and cutting-edge research. Our carefully curated events aim to facilitate networking and inspire attendees to innovate and contribute to the advancement of the industry.

BIO-Europe® 2024

BIO-EUROPE SPRING Join the BIO-Europe Spring, the premier spring-time life science partnering conference, taking place in the vibrant city of Barcelona, Spain, from March 18–20, 2024.

The eighteenth annual BIO-Europe Spring®, the premier springtime partnering conference, will be taking place March 18–20, 2024, in Barcelona, Spain.

Expanding on the success of EBD Group's flagship conference, BIO-Europe®, BIO-Europe Spring will bring together over 3,700 leading executives from around the world. Specifically, more than 20,000 partnering meetings will be hosted to connect leaders from academia, start-ups, and young biotech companies with forward-thinking investors and pharma companies.

Explore world-class workshops, thought-provoking panels, and innovative company presentations, while delving into an active exhibition showcasing cutting-edge technologies and services. The variety of networking opportu-

nities make this event an unrivalled forum for companies across the biotech value chain to connect, collaborate, and drive innovation.

The partnering platform, partnering-ONE®, continues to be the gold standard of connection. Scheduled meetings will take place face-to-face during the conference days as well as digitally during the digital partnering days, March 26–27, 2024. Additionally, on demand content will be made available leading up to the event as well as during the digital days. Using a single login, delegates can experience the digital portion of the event from anywhere, including one-to-one meetings and conference activities. ■

Come to Barcelona

GREETING For this year's event, we are pleased to be hosted by Biocat. Barcelona serves as an ideal setting for BIO-Eu-

rope Spring due to its unique combination of vibrant culture, cutting-edge research, and a thriving life sciences community. This cosmopolitan city offers a dynamic environment that enhances collaboration and innovation in the biotechnology and healthcare sectors.

We look forward to welcoming you to Barcelona for Europe's "must-attend" springtime partnering conference this March!

SWISS BIOTECH

April 22-23, 2024
Congress Center Basel,
Switzerland

Swiss Biotech Day

SWISS BIOTECH DAY 2024 One of Europe's premier biotechnology conference in Basel will attract about 2,000 professionals from the global life sciences community.

This year, the Swiss Biotech Day set a new benchmark with close to 1,800 participants from 44 nations. In 2024, it will once again provide a platform for networking, engaging discussions, and the exploration of advancements in R&D, manufacturing, data management, artificial intelligence, and innovative financing.

Equally attractive for biotech companies, their suppliers, investors and pharma partners, the biotech conference will again stage high-level experts from the life science industry and offer space for networking during one and a half day. Partnering allows to take advantage of opportunities and synergies arising from the close collaboration between biotech and phar-

ma, or to find interesting partners for future projects and jointly drive the development of innovative products and platform technologies. International biotech delegations use the „Global Village“ to strengthen their ties with Switzerland as a biotech hub and promote cross-border investments, public-private partnerships, research and development collaborations and exchange of talent.

The program will be presented in English with thematically focused panel discussions. Exhibitors, the celebration of the Swiss Biotech Success Stories award winners, and company presentations, as well as an excellent catering complement the cornerstones of the event.
