Clusters + manufacturing

Hot topics in life science clusters and contract manufacturing sites

As the European biotech ecosystem is increasingly maturing compared to competitors from Asia and the US, European Biotechnology Magazine takes a closer look at the relevant but also specialised life sciences clusters in a special feature. In addition to site portraits, the Life Sciences Clusters / Biomanufacturing Sites special offers cluster managers, core facilities and CDMOs the opportunity to gain visibility throughout Europe and beyond. Our new media partner, the Society for Laboratory Automation & Screening (SLAS), has 20,000 members, mainly in the USA. Don't miss this unique opportunity for targeted location marketing in an excellent editorial environment.

Present your expertise

Life sciences cluster managers, patent attorneys, business angels and VC specialists, and investment agencies alongside with facility/specialised real estate managers, CDMOs, engineering specialists, and gene therapy/immunology hubs will have the opportunity to present their unique capabilities, know-how, talent and services in this special feature. European Biotechnology Magazine goes out to decision makers throughout the entire European life sciences sector and lab automation executives in the US and Europe. Take advantage of the journal's highly relevant readership and grab this opportunity to target your audience!

Topics to be covered

Life sciences clusters and incubators: open innovation centres of big pharma, laboratory construction, real estate, start-up consulting and communication services, IP strategy, financing, GMP-compliant contract manufacturing core facilities and CDMOs, expert networks, cluster performance in the biopharmaceutical and the foodtech sectors.

Editorial Deadline

11-6-2025
