Drug delivery services

Hot topics in drug delivery

Although smart drug delivery accounts for only 10% of drug development costs, significant efforts have been made to optimise drug properties such as solubility, stability and release kinetics, while developing strategies to overcome biological barriers and improve drug delivery to the target site, thereby minimising off-target toxicities. In the next generation of drug delivery solutions, AI-driven nanorobots will recognise physiological microenvironments to deliver targeted medicines, promising to expand the therapeutic index of inherently toxic modalities. The latest drug delivery solutions as well as automated analysis tools, sensors, and AI/ML approaches to data modelling will be presented in this special feature. Become visible in European Biotechnology's CDMO & CRO special feature and present your offering or portfolio to customers.

Present your expertise

Biomedical engineers, drug developers, CDMOs, formulation experts, AI experts and medical device engineers have the opportunity to showcase their latest products, services and developments in this special feature. European Biotechnology Magazine is distributed to decision makers across the European life sciences sector and through our official partner, SLAS, in the USA. Take advantage of the magazine's highly relevant readership and use this opportunity to reach your target audience!

Topics to be covered

Services & equipment: Nanoparticles & vesicles, carbon nanotubes, organotropic bacteria/viruses, sustained release formulations, thin film delivery, drug carriers, CDMROs, excipients, brain shuttles & neural drug delivery systems, nanocapsules, gene delivery systems, experimental therapeutics, regulatory affairs, hydrogels, nasal administration, multispecific drug targeting vehicles, intracellular delivery, robotic pills, self-administration.

Editorial Deadline
26-11-2025

Editorial contact:
Thomas Gabrielczyk
Tel.: +49-30-264921-50
Fax: +49-30-264921-11
t.gabrielczyk@biocom.de

Booking Deadline
28-11-2025

Marketing contact:
Oliver Schnell
Tel.: +49-30-264921-45
Fax: +49-30-264921-11
o.schnell@biocom.de

Publication Date
11-12-2025

Marketing contact:
Andreas Macht
Tel.: +49-30-264921-54
Fax: +49-30-264921-11
