Summer 2026

**SPECIAL**

# Invitation

to participate in the RNA Technologies special in European Biotechnology Magazine.

- Multi-page special feature in European Biotechnology Magazine
- Special advertising rates for this issue
- DPrint, digital and online visibility

*European Biotechnology Magazine* will publish a multi-page special on **RNA technologies** in its Q2/2026 **issue**. The special will appear in print, in the digital edition, and on *european-biotechnology.com*.

The feature is aimed at companies providing services and technologies linked to RNA, including **CROs, CDMOs, formulation specialists, manufacturing partners, analytics providers, and companies working with RNA-based therapeutics and drug delivery**.

This special gives you the opportunity to present your **services, products and capabilities** to a relevant target group in the RNA field.

2/1 pages: €4,500

1/1 page: €3,400

1/2 page: €2,000

1/3 page: €1,500

**Prices for inserts, supplements and other special formats available on request.**

Advertisement deadline: **21 May 2026**

Publication date: 4 June 2026

Print Circulation: 10,000

Online Circulation: 19,000
